

Certificate of Analysis

BacMam LRRK2-GFP G2019S Reagent, 15 mL

Part Number: A14174

Lot Number: 1308124B

Immediate Storage: 4°C, protect from light.

Shipping Conditions: blue ice

www.lifetechnologies.com

Description:

Recombinant baculovirus particles suspended in Gibco® Sf-900™ III SFM media (Life Technologies™ 12658) supplemented with 3% heat-inactivated fetal bovine serum (hiFBS) (Life Technologies™ 10100).

Titer:

Because plaque assays are performed with insect cells this titer does not always directly correlate with the infectivity in a wide variety of mammalian cells. When expression of an engineered protein is the desired goal, infectivity alone is not a good measure for the functional expression of the target.

Storage and Handling:

4°C, **Protect from light, DO NOT freeze.** Handle using sterile technique, aliquot upon arrival. If properly stored and handled this product is guaranteed for 6 months from date of purchase.

Biosafety Level: 1

Protocol or Product Information Sheet:

Visit www.lifetechnologies.com and search on part number A14174 or A14192 and select manuals.

QUALITY ASSURANCE

Mycoplasma: Negative

Gene Insert: Lot tested for alignment to NP_940980.3 (G2019S) by PCR and sequencing. **Pass**

Tony Goossens, Engineer II, QA/QC
