

Certificate of Analysis

Recombinant Human Dickkopf Homolog 1 (DKK1)

Product No. PHC9214

Lot No. 1309130A

Expiration Date: Expires one year from date of receipt when stored as instructed.

Quantity: 10 µg

Format: Lyophilized

Release Test Method: In a functional ELISA, immobilized recombinant human LRP6/Fc chimera receptor (3 µg/mL, 100 µL/well) will bind recombinant human DKK1 with linear range of 0.340 ng/mL.

Filtration: Filtered prior to lyophilization through a 0.22 micron sterile filter.

Storage: 2–8°C

Endotoxin: <0.1 ng/µg

Purity by SDS Page: > 95%

For Research Use Only. Not for use in diagnostic procedures. If you have any further questions about this Certificate of Analysis, please contact Technical Services at 1–800–955–6288 (US and Canada) or 1–760–603–7200, x2 (all other countries).
