Description:

Vivid® MOBFC Substrate, dried under vacuum from acetonitrile. Vivid® MOBFC Substrate is Cyan Fluorescent.

Molecular Weight: 350.3 g/mol

Isozyme Compatibility:

Vivid® MOBFC Substrate is compatible with CYP2D6.

Purity: ≥ 97% chromatographic purity by HPLC.

Storage and Handling:

Store dry substrate at -20°C, and keep protected from light. Once the substrate has been resuspended, store the substrate at -20°C and keep protected from light.

Tony Goossens, Engineer I, QA/QC

Date: 24/May/2013
