

Analytical Test Result

CaptureSelect™ Biotin anti IgG-Fc (Human)

Origin: The Netherlands

Catalogue Code: 7103262100

Lot Number: 230614-01

Expiration Date: 23 Dec 2016

Manufacturing Date: 23 June 2014

Storage Temperature: -25/-15 °C

TEST & METHOD	SPECIFICATION	RESULT	UNITS
Concentration (OD280)	1.0	1.0	mg/ml
Purity (SEC)	≥ 95	Conform	%
Stability	Normal performance after 2 weeks storage at 30°C	Conform	
Identity	Binds human IgG	Conform	

ORIGIN STATEMENT:

The conjugate is expressed in *S. cerevisiae*. This yeast cell line does not act as a host cell line for viruses and does not spread BSE/TSE.

The conjugate is manufactured using a yeast culture medium containing one ingredient from bovine origin (Peptone, Beckton Dickinson and Company). This ingredient meets the criteria for products with risk of TSE and is granted by the European Directorate for the Quality of Medicines & Healthcare (edQm) with a Certificate of suitability (No. R1-CEP 2000-175-Rev 01). It is therefore considered to pose no risk of BSE/TSE infectivity.

FOR RESEARCH ONLY. NOT FOR USE IN DIAGNOSTIC PROCEDURES
