

PRODUCT DATA SHEET
PRODUCT NAME: pMCS minP-Tluc16-DD
PRODUCT NUMBER: 88232
LOT NUMBER: QA213762
Amount: 10µg (0.5µg/µL)

Shipping conditions: Shipped on ice packs

Storage: -20°C

Storage buffer: 10mM Tris-HCl, pH 8.5

Quality control:
 $A_{260}/A_{280} \geq 1.8$

Identity: Sequence verified

Restriction enzyme digestion results in expected banding pattern on 1.0% agarose.

Description: The Thermo Scientific™ pMCS minP-Tluc16-DD Vector is a transcriptional reporter vector that encodes the smallest known luciferase, Thermo Scientific™ TurboLuc™ Luciferase (Tluc16), as the reporter. The vector contains the multiple cloning sites (MCS) and a core minimal promoter (minP) upstream of the reporter gene for the insertion of regulatory elements lacking a promoter activity. Tluc16 is novel 16kDa intracellular luciferase derived from the marine copepod *Metridia* luciferase family. The wild-type luciferase has been modified to reduce its size, increase brightness and express intracellularly. The Tluc16 luciferase expression vector also contains the patented dual-destabilization technology (DD) that reduces accumulation of the Tluc16 mRNA and Tluc16 protein in cells, enhancing the responsiveness of the assay. A Synthetic PolyA terminator and a Transcriptional Pause Site (TPS) are included upstream of MCS to minimize nonspecific transcriptional read-through. Tluc16 luciferase activity can be measured using the Thermo Scientific™ TurboLuc™ One-Step Glow Assay Kits (Product Nos. 88263 and 88264).

The following features are present in the vector based on the nucleotide sequence:

| | |
|---|-----------|
| Multiple Cloning Site (MCS) | 1-41 |
| minP region (minimal core promoter) | 45-60 |
| Optimized 5' UTR* | 80-144 |
| TurboLuc Luciferase Gene with PDE [†] | 145-717 |
| RNA-DE [‡] and modified poly(A) signal | 721-954 |
| pUC replication origin (pUC Ori) | 1863-1244 |
| Amp ^R Promoter | 2966-2938 |
| Beta-lactamase (Amp ^R) gene | 2896-2036 |
| Synthetic PolyA terminator | 2983-3029 |
| Modified Transcriptional Pause Site (TPS) | 3043-3129 |

* Optimized 5' UTR region contains RNA-DE for improved response and Kozak for efficient expression of Tluc16

[†]PDE: Protein destabilization element

[‡]RNA-DE (RDE): RNA-destabilization elements

Figure 1. Thermo Scientific pMCS minP-Tluc16-DD Vector map and features. Nucleotide sequence information for the pMCS minP-Tluc16-DD vector is available online at: lifetechnologies.com

This product ("Product") is warranted to operate or perform substantially in conformance with published Product specifications in effect at the time of sale, as set forth in the Product documentation, specifications and/or accompanying package inserts ("Documentation") and to be free from defects in material and workmanship. Unless otherwise expressly authorized in writing, Products are supplied for research use only. No claim of suitability for use in applications regulated by FDA is made. The warranty provided herein is valid only when used by properly trained individuals. Unless otherwise stated in the Documentation, this warranty is limited to one year from date of shipment when the Product is subjected to normal, proper and intended usage. This warranty does not extend to anyone other than the original purchaser of the Product ("Buyer").

No other warranties, express or implied, are granted, including without limitation, implied warranties of merchantability, fitness for any particular purpose, or non infringement. Buyer's exclusive remedy for non-conforming Products during the warranty period is limited to replacement of or refund for the non-conforming Product(s). There is no obligation to replace Products as the result of (i) accident, disaster or event of force majeure, (ii) misuse, fault or negligence of or by Buyer, (iii) use of the Products in a manner for which they were not designed, or (iv) improper storage and handling of the Products. All trademarks are the property of Thermo Scientific Inc. and its subsidiaries.

PRODUCT DATA SHEET

MCS Sequence Details:

Note:

- Restriction digestion using BsmBI generates ends compatible with HindIII enzyme restriction site
- Restriction digestion using Acc651 and BsiWI generates compatible ends
- SmaI, BglII or HindIII can be used in combination with any restriction enzymes 5' of minP to clone-in a natural promoter or to remove minP

Primers for Sequencing:

| Location | Sequence | Direction |
|-----------|----------------------|-----------|
| 3040-3055 | GTCTCACTAGGATCG | Forward |
| 188-168 | AGTTTCTTCCCTGGCAGCTT | Reverse |

Limited Use Label License: Thermo Scientific TurboLuc™ (Tluc) Luciferase Gene Products for qIP Protein Interaction (Thermo Scientific Product Nos. 82017, 82018, 82019, 82020, 82023, 82024, 82025, 82026, 82028, 82029, 82031) and One-Step Glow Assay (Thermo Scientific Product Nos. 88231, 88232, 88235, 88236, 88241, 88246, 88247, 88248, 88249, 88255, 88256)

This product is covered by applicable patents and patent applications and foreign counterparts. The purchase of this product conveys to the buyer the non-exclusive, non-transferable right to use the purchased amount of the product and components of the product in research conducted by the buyer (whether the buyer is an academic or for-profit entity). This product is sold under license from GeneStream Private Limited.

Except as set forth herein, the buyer cannot sell, transfer or otherwise provide access to (a) this product or (b) any of its components to a third party or otherwise use this product or its components or materials made using this product or its components for Commercial Purposes.

Commercial Purposes means any activity by a party for monetary or other consideration and includes, but is not limited to: (1) use of the product or its components in manufacturing; (2) use of the product or its components to provide a service, information, or data; (3) use of the product or its components for therapeutic or diagnostic purposes; or (4) resale of the product or any of its components, whether or not such product or its components are resold for use in research.

The buyer may transfer information or materials made through the use of this product to a scientific collaborator, provided that a copy of this Limited Use Label License is made available to this scientific collaborator and the collaborator agrees to be bound by its terms. The buyer shall have no right to modify or otherwise create variations to the luciferase gene nucleotide sequences except to create reporter gene fusions or splice site variants. For TurboLuc™ Luciferase One-Step Glow Assay gene products with an RNA and/or protein destabilization domain (indicated with "DD"), the buyer shall have no right to use, clone, reclone, modify or otherwise create variations of the RNA destabilization domain and/or the protein destabilization domain of this product alone or in combination with any other gene(s) or vector(s).

In addition, the buyer shall:

This product ("Product") is warranted to operate or perform substantially in conformance with published Product specifications in effect at the time of sale, as set forth in the Product documentation, specifications and/or accompanying package inserts ("Documentation") and to be free from defects in material and workmanship. Unless otherwise expressly authorized in writing, Products are supplied for research use only. No claim of suitability for use in applications regulated by FDA is made. The warranty provided herein is valid only when used by properly trained individuals. Unless otherwise stated in the Documentation, this warranty is limited to one year from date of shipment when the Product is subjected to normal, proper and intended usage. This warranty does not extend to anyone other than the original purchaser of the Product ("Buyer").

No other warranties, express or implied, are granted, including without limitation, implied warranties of merchantability, fitness for any particular purpose, or non infringement. Buyer's exclusive remedy for non-conforming Products during the warranty period is limited to replacement of or refund for the non-conforming Product(s). There is no obligation to replace Products as the result of (i) accident, disaster or event of force majeure, (ii) misuse, fault or negligence of or by Buyer, (iii) use of the Products in a manner for which they were not designed, or (iv) improper storage and handling of the Products. All trademarks are the property of Thermo Scientific Inc. and its subsidiaries.

PRODUCT DATA SHEET

(a) only use the Thermo Scientific TurboLuc™ (Tluc) Luciferase gene products listed in Group A in the table below with the Thermo Scientific Pierce qIP Protein Interaction reagents listed in Group B in the table below, and vice-versa, for determinations of Tluc luciferase activity:

| |
|---|
| Group A: TurboLuc™ Luciferase gene products for qIP |
| Product No. 82017: pCMV MCS N-HA |
| Product No. 82018: pCMV MCS C-HA |
| Product No. 82019: pCMV MCS N-Myc |
| Product No. 82020: pCMV MCS C-Myc |
| Product No. 82023: pCMV MCS N-Tluc |
| Product No. 82024: pCMV MCS C-Tluc |
| Product No. 82025: pCMV RFP C-HA |
| Product No. 82026: pCMV RFP C-Myc |
| Product No. 82028: pCMV BAD C-HA |
| Product No. 82029: pCMV BAD C-Myc |
| Product No. 82031: pCMV Bcl-xL N-Tluc |
| |
| Group B: qIP Protein Interaction reagents |
| Product No. 82013: Pierce™ qIP Protein Interaction Buffer L (1X) |
| Product No. 82014: Pierce™ qIP Protein Interaction Buffer D (10X) |
| Product No. 82015: Pierce™ qIP Protein Interaction Tluc Assay Reagents |
| Product No. 82016: Pierce™ qIP Protein Interaction Tluc Assay Reagents |
| Product No. 82032: Pierce™ Agarose qIP Protein Interaction Kit, Tluc and HA Tags |
| Product No. 82033: Pierce™ Agarose qIP Protein Interaction Kit, Tluc and Myc Tags |
| Product No. 82035: Pierce™ Magnetic qIP Protein Interaction Kit, Tluc and HA Tag |
| Product No. 82036: Pierce™ Magnetic qIP Protein Interaction Kit, Tluc and Myc Tag |

(b) only use the Thermo Scientific TurboLuc™ Luciferase One-Step Glow Assay gene products listed in Group C in the table below with the TurboLuc™ Luciferase One-Step Glow Assay reagents listed in Group D in the table below, and vice-versa, for determinations of Tluc luciferase activity:

| |
|--|
| Group C: TurboLuc™ Luciferase One-Step Glow Assay gene products |
| Product No. 88231: pMCS Tluc16-DD |
| Product No. 88232: pMCS minP-Tluc16-DD |
| Product No. 88235: pMCS Tluc16 |
| Product No. 88236: pMCS minP-Tluc16 |
| Product No. 88241: pEF1α Tluc16-DD |
| Product No. 88246: pNFκB Tluc16-DD |
| Product No. 88247: pCRE Tluc16-DD |
| Product No. 88248: pMCS Tluc16-DD Hygro |
| Product No. 88249: pMCS minP-Tluc16-DD Hygro |
| Product No. 88255: pMCS Tluc16 Hygro |
| Product No. 88256: pMCS minP-Tluc16 Hygro |
| |
| Group D: TurboLuc™ Luciferase One-Step Glow Assay reagents |

This product ("Product") is warranted to operate or perform substantially in conformance with published Product specifications in effect at the time of sale, as set forth in the Product documentation, specifications and/or accompanying package inserts ("Documentation") and to be free from defects in material and workmanship.
