

Certificate of Conformance

This product has been manufactured according to Thermo Fisher Scientific Finland manufacturing processes, in compliance with ISO 9001 quality system standard. Thermo Fisher Scientific certifies the product(s) below meet their design and quality specifications.

Components included in the kit:

Component code	Component name	Lot
PT0040A	PCR Caps	0020008621
A56840B	Escherichia coli STEC Identification PCR	0020008690

Test

Reagents have been tested for functionality and target contamination, and plastics for visual inspection.

Quality control result: PASS

For testing of Food and Environmental samples only.

Storage:

The reagents will remain stable until the expiry date stated on the packaging when stored and handled as directed in the instructions for use.
