

Certificate of Analysis

Recombinant Human NT-3

Product No. PHC7036
Lot No. 74586112A
Expiration Date 31Dec2017

Quantity: 10 µg

Format: Lyophilized

Release Test Method: The biological activity is determined by measuring the dose dependent induction of choline acetyltransferase activity with rat basal forebrain primary septal cultures.

Filtration: Filtered through a 0.2 micron filter prior to lyophilization.

Storage: 2–8°C

Activity: ED 50 = 2050 ng/mL.

Endotoxin: <0.1 ng/µg

Purity by SDS Page: 98%

For Research Use Only. Not for use in diagnostic procedures. If you have any further questions about this Certificate of Analysis, please contact Technical Services at 1–800–955–6288 (US and Canada) or 1–760–603–7200, x2 (all other countries).
