

# Certificate of Analysis

## BioPrime® DNA Labeling System

Product No. 18094011, 18094-011, 10553853

Lot No. 3026229

Date of Manufacture 05-Sep-2024

---

### Incorporation Assay

Specification: For the biotin-labeled samples, yield from 100 ng of input DNA should be > 1.8 µg.

Result: Meets specification.

Specification: Dye incorporated in the biotin-labeled samples should be > 200 pmol.

Result: Meets specification.

Specification: Degree of labeling for the biotin-labeled samples should be > 2.0.

Result: Meets specification.

---

For Research Use Only. Not for use in diagnostic procedures.
