

Certificate of Analysis

NativeMark™ Unstained Protein Standard

Product No. LC0725, 11574986

Lot No. 2958884

Date of Manufacture 19-Jun-2024

Expiration Date 11-Jun-2025

Gel Testing

Eight major sharp bands must be present when 5 µl is analyzed on native polyacrylamide gels and stained with Coomassie. Gel test performance must be comparable to a previously released lot.

Intensity

Band intensity after staining with Coomassie must not differ more than 20% from a previously released lot.

Migration

Bands migrate comparably to a previously released lot.

Contamination

All contaminating bands must be less than 20% of the intensity of the major bands.

Results:

Meets all specifications.

For Research Use Only. Not for use in diagnostic procedures.
