

# Certificate of Analysis

## MagicMark™ XP Western Protein Standard

Product No. LC5603, 10610856

Lot No. 2909374

Date of Manufacture 29-Apr-2024

Expiration Date 25-Dec-2024

---

### Gel Testing

Specification: Nine protein bands must be present in a 5µl load when tested on 10% Bis-Tris gel with MOPS running buffer and stained with Simply Blue SafeStain.

Result: Meets specification.

### Western Blot Test

Specification: Nine protein bands must be present in a 2µl load after Western blotting and detection with the WesternBreeze Anti-Mouse Chromatic or Chemiluminescent Kit.

Result: Meets specification.

### Intensity

Specification: Band intensity from the lot being tested on the 2 µl load must be comparable to the protein bands from previously approved lot (in the 30 second film in the Chemiluminescent Test).

Result: Meets specification.

### Contamination

Specification: Contaminating band intensity must be less than 20% of major band intensity.

Result: Meets specification.
