

Data Sheet

Human NTCP (G)/HEK293 Cells

Cat. No.	: GM1113G
Cell number	: 11.6×10^6 cells/vial
Lot. No.	: AKIRG05
Viability	: 94%
Medium	: cryopreservation solution
Storage	: in liquid nitrogen container
Microbial Status	: mycoplasma free

• Transport Activity

The following data shows the uptake of 100 nM taurocholic acid (TCA).

• Caution !

This product is for RESEARCH USE ONLY. Never use for diagnostic and medical purpose.

Product information

Cell line	HEK293 expressing Human NTCP
Expressed gene	Human NTCP (Accession No. NM_003049.3)
Manufacture	GenoMembrane Co.,Ltd.

GenoMembrane
