## **CERTIFICATE OF ANALYSIS**

| PRODUCT NAME:     | TheraPure® Bz dA β-Cyanoethyl Phosphoramidite                        | STRUCTURE                               |
|-------------------|----------------------------------------------------------------------|-----------------------------------------|
| PRODUCT NUMBER:   | 27-2030-07                                                           |                                         |
| LOT NUMBER:       | XB1512                                                               |                                         |
| BULK NUMBER:      | WI00852                                                              |                                         |
| DESCRIPTION:      | 5'-O-Dimethoxytrityl-N <sup>6</sup> -benzoyl-2'-deoxyadenosine-3'-O- | N HN                                    |
|                   | (β-cyanoethyl-N,N-diisopropyl) phosphoramidite                       |                                         |
| CHEMICAL FORMULA: | C <sub>47</sub> H <sub>52</sub> N <sub>7</sub> O <sub>7</sub> P      | N N                                     |
| MOLECULAR WEIGHT: | 857.95 g/mol                                                         |                                         |
| CAS NUMBER:       | 98796-53-3                                                           | \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ |
| STORE:            | -20°C                                                                | N-P.                                    |
| SHIP:             | Ambient                                                              | √ °O ~ CN                               |
| MANUFACTURE DATE: | 09/22/2021                                                           | ]                                       |
| RETEST DATE:      | 03/25/2025                                                           |                                         |
| EXPIRATION DATE:  | 09/21/2025                                                           |                                         |

## **ANALYSIS RESULTS**

| Property                      | Specification Limits                                                           | Observed Value |
|-------------------------------|--------------------------------------------------------------------------------|----------------|
| Appearance                    | White to pale yellow powder                                                    | Pass           |
| Appearance                    | Color intensity of the powder must not exceed Pantone #P1-4U or #P4-2U         | Pass           |
| Solution Clarity              | 0.2M solution in acetonitrile is free from undissolved particulate             | Pass           |
| HPLC Purity (at 260 nm)       | ≥ 99%                                                                          | 100%           |
|                               | Unknown single impurity ≤ 0.3%                                                 | Pass           |
|                               | Non-critical single impurity: None > 0.5%                                      | Pass           |
|                               | Single critical impurity ≤ 0.15%                                               | Pass           |
|                               | Sum of critical impurities ≤ 0.3%                                              | Pass           |
| Identification by UV Spectrum | The λ maxima of the sample and standard spectra are within ± 2nm               | Pass           |
| M-11 Impurity                 | ≤0.01%<br>(Isopropyl-N,N,N',N'-tetraisopropylphosphorodiamidte)                | Pass           |
| <sup>31</sup> P NMR Purity    | ≥ 99%                                                                          | 100%           |
|                               | Sum of non-primary peaks at 140-152 ppm is ≤ 0.3%                              | 0.0%           |
|                               | Sum of non-primary peaks at 5-35 ppm is ≤ 1.0%                                 | 0.0%           |
|                               | Peak at ~146 ppm is ≤ 0.10%<br>(HMT phosphoramidite impurity; MW 506.58)       | Pass           |
|                               | No peak(s) above 170 ppm                                                       | Pass           |
| Water Content                 | ≤ 0.3%                                                                         | 0.1%           |
| Residual Solvent              | ≤ 3.0% total % by weight solvent residue                                       | 1.2%           |
| Material Origin (TSE/BSE)     | No known animal-derived materials were used in the manufacture of this product | Pass           |

Phosphoramidites are sensitive to environmental conditions when in powder or liquid form. Take precautions to avoid potential precipitation, degradation or hydrolysis that can affect performance or delivery of the phosphoramidite during synthesis. Control temperature, humidity, and exposure time to air for both the phosphoramidite and diluent.
