

Catalog Number: 1367820A

Lot Number: 21252117

Product Description: Fisherbrand™ Disposable Borosilicate Glass Pasteur Pipets

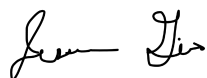

Certificate of Compliance

In accordance with applicable ISO 9001 and Company requirements, our supplier hereby certifies with respect to the manufactured item described above (collectively, the "Product") that:

1. Product has been given appropriate visual, and/or mechanical and/or electronic inspection and the results of these inspections indicate that the product meets all agreed upon contractual specifications at the time of its shipment.
2. **Glass:** Our Supplier certifies that glass product will meet the following:
 - a. **TYPE I Borosilicate Glass** - Product meets the requirements for the glass grain test limits for Type I Glass when tested according to the current revisions of the USP <660> Pharmacopeias.
 - b. **Arsenic Extraction** - Product will meet the requirements as described in the current revisions of USP <660> and EP3.2.1 Pharmacopeias for Arsenic Extraction.
 - c. **TYPE III Soda Lime Glass** - Product meets the requirements for the glass grain test limits according to the current revisions of the USP <660> Pharmacopeias.
 - d. **Amber Glass** - Product conforms to the light transmission limits specified in the current version of the USP and EP Pharmacopeias.
 - e. **Hydrolytic Resistance** when indicated above this product conforms to the current revisions USP <660>. *EP compliant vials will either have "EP" listed in the item # or description or "Type I" in the description.
 - f. **Heavy Metals** are not intentionally added to the glass compositions. Thus, contents of lead, cadmium, mercury and hexavalent chrome are in compliance with the limit values of 100 parts per million by weight for US (TPCH and CONEG) and EC regulations.
 - g. **Transmissible and Bovine Spongiform Encephalopathy (TSE/BSE)** our supplier certifies that containers made from glass are free of any nonconforming animal derivatives.
3. **Plastic:** Our supplier certifies that product made from resin material has been manufactured under controlled conditions and is in compliance with all applicable procedures and specifications.
4. **Rubber:** Our supplier certifies that product made from rubber has been manufactured under controlled conditions and is in compliance with all applicable procedures and specifications.
5. **Aluminum:** Our supplier certifies that product made from aluminum has been manufactured under controlled conditions and is in compliance with all applicable procedures and specifications.
6. **Hazardous Materials:** Our suppliers glassware does not fall within the scope of the RoHS directive, as their glassware products fall into the exempt status for Medical Devices. Nonetheless, to the best of their knowledge they convey that their glassware does not contain any of the restricted substances outlined by RoHS / WEEE or equivalent directive (e.g. OEHHA Proposition 65).
7. **REACH:** Our supplier is a manufacturer and supplier of "articles" to their EU customers; they do not manufacture or supply "substances" or "preparations" and their scientific glassware does not involve the "intentional release of substances". Accordingly, they foresee no registration or pre-registration requirement for the products they supply.
8. **Conflict Minerals:** To the best of their knowledge our supplier conveys that their scientific laboratory glassware does not intentionally contain any of the conflict minerals (tin, tantalum, tungsten or gold) as outlined in Section 1502 of the Dodd-Frank Wall street Reform and Consumer Protection Act.

*Disclaimer: The information herein provided may be based and/or obtained from raw material supplier certificates or, testing reports or, supplier Material Safety Data Sheets or similar.

This Certificate has been compiled with data that has been provided by the manufacturer of the product. The Fisher Scientific Channel has not independently verified such data.

A handwritten signature in black ink, appearing to read "J. J. Fisher".
