# CERTIFICATE OF ANALYSIS

| 4458689        | BigDye™ Direct Cycle Sequencing Kit                          |  |
|----------------|--|--|
| Packaging Lot: | 2964052  |  |
| Expiry Date:   | 28.02.2025 (DD.MM.YYYY)                                      |  |
| Storage:       | at -20±5°C in the dark                                       |  |
| Note:          | For Research Use Only. Not for use in diagnostic procedures. |  |

### Filling lots for components in package:

| Lot     | Quantity | Description                          |
|---------|----------|--------------------------------------|
| 2933261 | 48 µL    | BigDye™ Direct Sequencing Master Mix |
| 2933256 | 120 µL   | BigDye™ Direct PCR Master Mix        |
| 2923138 | 20 µL    | Control DNA CEPH 1347-02             |
| 2933258 | 24 µL    | BigDye™ Direct M13 Forward Primer    |
| 2938273 | 24 µL    | BigDye™ Direct M13 Reverse Primer    |

## **QUALITY CONTROL**

| Parameter  | Method   | Requirement   | Result |
|--|--|---|--------|
| pH<br>(PCR Master Mix,<br>Sequencing Master Mix)   | Measured using a pH meter at 25 °C.  | Within range of target pH   | Pass   |
| Mg <sup>2+</sup> Concentration<br>(PCR Master Mix) | Determined by analytical method.   | Within range of target concentration  | Pass   |
| dATP Concentration<br>(PCR Master Mix)             | Determined by analytical method.   | Within range of target concentration  | Pass   |
| dCTP Concentration<br>(PCR Master Mix)             | Determined by analytical method.   | Within range of target concentration  | Pass   |
| dGTP Concentration<br>(PCR Master Mix)             | Determined by analytical method.   | Within range of target concentration  | Pass   |
| dTTP Concentration<br>(PCR Master Mix)             | Determined by analytical method.   | Within range of target concentration  | Pass   |
| DNase<br>(PCR Master Mix)                          | Determined by analytical method.   | ≤ 155 pg / 1U   | Pass   |
| RNase<br>(PCR Master Mix)                          | Determined by analytical method.   | ≤ 1.15 pg / 1U  | Pass   |
| <i>E. coli</i> Ori<br>(PCR Master Mix)             | Bacterial DNA Burden.  | ≤ 4.000 copy  | Pass   |
| (PCR Master Mix) from human genomic DNA and P      |  | Reaction produces 1 specific<br>PCR product, which is correct<br>length and yield                             | Pass   |
| Functional test<br>(Sequencing Master Mix)         | Product is tested for DNA Sequencing functional performance on a Genetic Analyzer. | <ul> <li>Contiguous Read Length (KB-QV20) ≥ 580 bp</li> <li>Base Calling Accuracy (98.5%) ≥ 580 bp</li> </ul> | Pass   |

| Purity<br>(M13 forward primer,<br>M13 reverse primer)        | Determined by HPLC.  | Meet predetermined specifications                               | Pass |
|--|--|---|------|
| Concentration<br>(M13 forward primer,<br>M13 reverse primer) | Determined by analytical method.   | Meet predetermined specifications                               | Pass |
| Physical inspection  | Components are inspected for correct<br>label and lot number. Caps are<br>tightened to manufacturer's<br>recommended torque. | <ul> <li>Tube label inspection</li> <li>Torque check</li> </ul> | Pass |

#### **ISO CERTIFICATION**

Manufactured by Thermo Fisher Scientific Baltics UAB, in compliance with ISO 9001 and ISO 13485 certified quality management system.

Quality authorized by QC: J. Žilinskienė
