The Clorox Company, by policy, does not share information that is considered to be proprietary. However we do state in our Letter of Guarantee the minimum level of active ingredient that will be present upon shipment.

To support our guarantee we sample and test the actives for all batches of products produced and we conduct regular internal quality audits of our internal quality systems.

NOTE

Percentage represents the level of Sodium Hypochlorite present at shipment

Please let me know if you need any other information.

Sincerely,
Clorox Corporate Quality Assurance
