

CERTIFICATE OF GRAVIMETRIC PREPARATION

PRODUCT: ICP Standard Carbon 1000 mg/L
PRODUCT No.: PC2A7
MATRIX: H₂O
LOT NO.: PC2724D1
DATE OF PREPARATION: 11th April 2024
EXPIRY DATE: 28th April 2026
DENSITY VALUE: 1.000 g/ml @ 20°C

PREPARATION OF STANDARD:

All standard components have been pre-qualified/verified before use. All analytical measuring devices and instrumentation have been pre-calibrated. The actual concentrations reported below are based on this preparation methodology and compound impurities.

| Raw Material | Purity % | Nominal mg/kg | Actual mg/kg |
|---------------|----------|---------------|--------------|
| Tartaric Acid | 99.5 | 1000 | 1000± 1.0% |

1000 mg/kg is equivalent to 1000 mg/L @ 20°C

The expanded uncertainty (k=2) due to weighing, volumetric preparation and homogeneity is calculated in compliance with EURACHEM/CITAC Guide: Quantifying Uncertainty in Analytical Measurements as ± 0.2 %. All values are verified by Titrimetric analysis using externally sourced ISO 17034 accredited Certified Reference Materials as calibrants/quality controls where possible.

TRACEABILITY IN THE PRODUCTION OF THIS STANDARD

This product was prepared gravimetrically on a mass/mass basis, using a balance calibrated by Reagecon engineers with mass standards traceable to the National and International primary standard of mass. Reagecon holds ISO 17025 accreditation for calibration of non-automatic weighing machines. The resulting Balance Certificate of Calibration was issued in accordance with the requirements of ISO/IEC 17025. The balance was calibrated under monitored environmental conditions and atmospheric pressure. Tests were performed for capacity, readability, repeatability, eccentricity and linearity.

TEST METHOD:

The mean result of this standard was verified using titration according to an in-house test method. The result reported in this certificate was confirmed by analysis of a sample of this lot taken at time of manufacture. The density of this standard was determined using a high performance calibrated density meter.

This certificate relates solely to the lot number given above.

Approved By: QC Supervisor

Date: 12th April 2024

This certificate must not be reproduced except in full.
